Master's in Health Services Management
"Adressing the Social Gradient in Health in Portugal through Primary Health Care: A Challenge for Equity and Social Justice"

ERRATUM

After adjusting the data in Figure 6.3 and refreshing the HEAT-sourced chart in Annex E, the corresponding text (pages 19 and 31, respectively) was revised as follows:

- Page 19, Figure 6.3 | The percentages listed in the "% of Households Experiencing very low Work Intensity" column accidentally included an additional digit (1). The correct rates are 6.3% (Portugal) and 8% (EU27).

- Page 19, 7th Line | "1.3%" should read "1.7%".

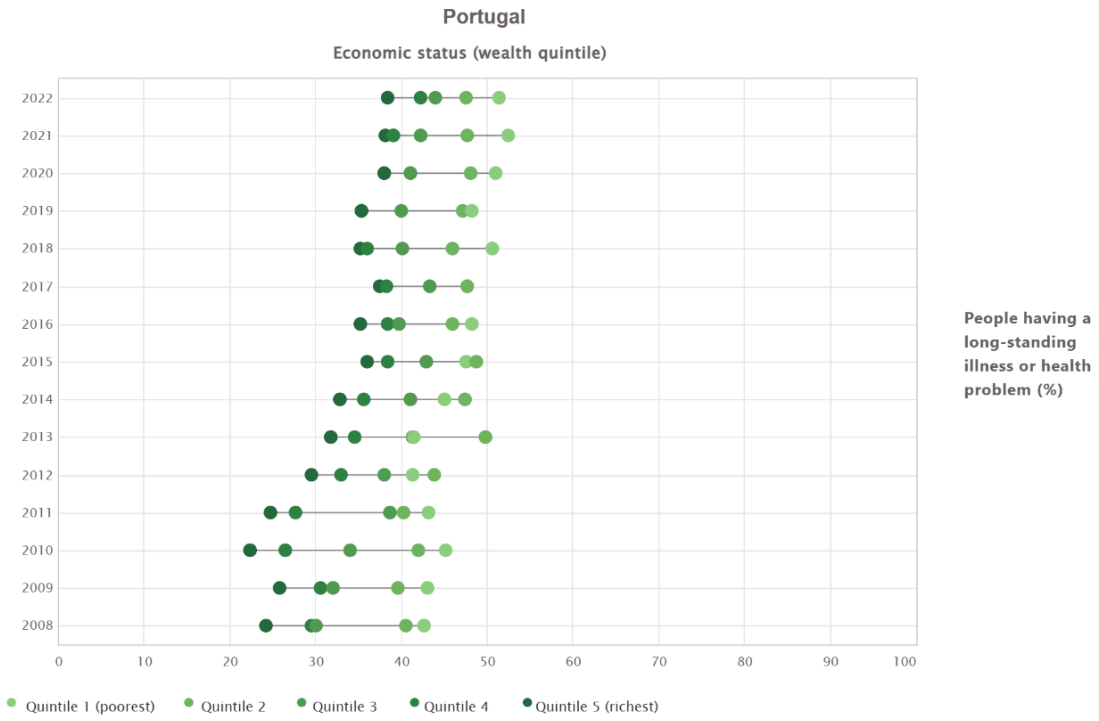

- Page 31, 23th-25th Lines | "Indeed, in 2015, the prevalence of long-term diseases or health problems showed an 18.7 percentage-point gap between the poorest (43.2%) and the richest (24.8%) income quintiles of society" should read "Indeed, in 2010, the prevalence of long-term diseases or health problems among adults showed a 22.8 percentage-point gap between the poorest (45.1%) and the richest (22.3%) income quintiles".

- Page 31, 25th-27th Lines | "As of 2022, this gap had shortened by 5 percentage points, while the occurrence of illness among the most underprivileged and privileged cohorts had increased by over 8% (8.2%) and 13% (13.6%), respectively" should read "As of 2024, this gap had shortened by 9.7 percentage points, while the occurrence of illness among the most underprivileged and privileged cohorts had increased by over 5% (5.6%) and 15% (15.3%), respectively".

In Section "Annexes", the following changes were made to Annex E:

- Page 61, Annex E (Title) | "Health Inequalities between Economic Status Groups, in Portugal (2008 to 2022)" should read "Health Inequalities between Economic Status Groups, in Portugal (2008 to 2024)"

- Page 61, Annex E | The chart in Annex E should be replaced with the following chart (Eurostat, 2026):

Health Equity Assessment Toolkit (HEAT): Software for exploring and comparing health inequalities in countries and territories. Built-in database edition. Version 6.0. Geneva, World Health Organization, 2024.

The data used in this version were drawn from the WHO Health Inequality Monitor data repository (2024 update) which may have been revised or updated since that time. The most recent version of that database is available on the WHO website (https://www.who.int/data/inequality-monitor/data).

Please note that these data are from external published sources and are therefore not WHO official estimates. Please refer to the Indicator Metadata in the About menu for more information.
